

International Symposium on Endovascular Therapeutics

8th March 2018 · YOUNG TALENTS DAY

SESSIONS 12.00 - 18.00

Lectures: 7 min + 5 min discussion

12.00 h - 14.00 h · INTRODUCTION & LOWER LIMBS

- 12.00 h - 12.10 h** Introduction, why I am here...?
All Faculties and participants.
- 12.10 h - 12.25 h** How to improve your international talks.
V. Riambau
- 12.25 h - 12.45 h** SFA, the new technologies that are really changing my practice.
J. Fernández Noya
- 12.45 h - 13.00 h** Atherectomy devices + DEB, it is the future of the SFA?
L.M. Salmerón
- 13.00 h - 13.15 h** Below the knee, something new at the last 3 years?
G. Mestres
- 13.15 h - 13.30 h** Ao-iliac complex lesions, CERAB, when and why?
E. Puras
- 13.00 h - 14.00 h** Challenging peripheral cases discussion (by participants, moderated by E. Roche) (1 complex case by participants)

14.00 h - 14.40 h · LUNCH

14.40 h - 16.40 h · AORTA

- 14.40 h - 14.55 h** Complex Aorta endo repair, what is changing my practice last years?
N. Mosquera
- 14.55 h - 15.10 h** CH-EVAR VS FEVAR, What's making my choice?
G. Mestres
- 15.10 h - 15.25 h** What we do know and what we would need to know about EVAR?
V. Riambau

- 15.25 h - 15.40 h** The learning curve for complex Aorta endo approach, not a straight line.
F. Gallardo
- 15.40 h - 15.55 h** How I select my stentgraft for EVAR?
J. Fernández Noya
- 15.55 h - 16.10 h** My messages for you if you want to start with a complex aorta repair program. Step by step.
N. Mosquera
- 16.10 h - 16.40 h** Challenging AORTA cases discussion (by participants, moderated by G Mestres) (1 complex case by participants)

16.40 h - 18.00 h · FROM THE INDUSTRY TO THE YOUNG TALENTS: WHAT'S COMING FROM

- 16.40 h - 17.00 h** Cordis
- 17.00 h - 17.20 h** Logimed
- 17.20 h - 17.40 h** Medtronic
- 17.40 h - 18.00 h** World Medica

- CANDIDATE REQUISITES: 30 - 40 years old**
- According to industry pre-selection
 - CV required for all candidates
 - Final revision and selection of candidates by the SITE Scientific Committee

19.30 h - 22.30 h WELCOME AND EXPERT RECEPTION AT OLEUM RESTAURANT, MNAC (Museu Nacional d'Art de Catalunya)

- 19.30 h - 19.45 h** Key note conference by Prof. Rafael Rodríguez Clemente: The intriguing relation between science and innovation. How this relation affects medical practice?
- 19.45 h - 22.30 h** Welcome Cocktail

9th March 2018

07.30 h - 07.55 h · REGISTRATION

07.55 h - 08.00 h · WELCOME & INTRODUCTION

08.00 h - 13.20 h · FOCUS 1: UNSOLVED PROBLEMS ON AORTIC REPAIR

08.00 h - 09.30 h Session 1: Current limitations on Thoracic Endografting. Ascending, arch and thoracoabdominal fates

Moderators: V. Rimbau and M. Jenkins

Panellists: S. Haulon, I. Loftus, J. Martorell, G. Melissano, S. Trimarchi

1. How far we are from the endovascular repair of ascending aorta?
2. What will be the best endovascular solution for the arch pathology?
3. Are current thoracoabdominal platforms durable enough?
4. Are new adjuvants needed for acute and chronic Type B dissection management?
5. Cardiovascular morbidity and mortality after TEVAR could be related to the endograft stiffness?
6. Any other concern?

09.30 h - 11.00 h Session 2: Current unmet needs on Abdominal Aorta endografting. The Infra justa and para-renal aneurysm fates

Moderators: N. Mosquera and G. Melissano

Panellists: E. Ducasse, M. Jenkins, S. Sultan, A. Wanhainen, R. Milner

1. Is durability a concern in aortic repair?. Which are the key points affecting durability (fixation? Material fatigue? Endoleaks?)
2. Can different approaches solve problems or produce new ones? The sac filling fate.
3. If very long term results are not really good why should we go on? EVAR trial vs the real world. Do we need to demonstrate the value of endovascular aortic therapy in 2017? How can we do that?
4. What do you need to finally set up EVAR/FEVAR first approach in the guidelines? Can we build the evidence? Do we need the evidence?
5. The off label use in pararenal/juxtarenal aortic endovascular therapy: is there a need to improve new materials and techniques or just change the IFUs based on proper evidence?
6. After almost 30 years of endovascular aortic repair any signs of a new revolution or just a trend to refine the therapy?

11.00 h - 11.30 h · BREAK

11.30 h - 13.30 h Session 3: The Confidential Session: Taking a look into the pipeline; new devices and innovative concepts from the industry

Moderators: L.M. Salmerón and G. Mestres

Panellists: S. Haulon, I. Loftus, J. Martorell, S. Trimarchi, S. Sultan, A. Wanhainen

1. JOTEC - Endovascular aortic arch repair using a novel reversed inner branch device, Dr. Marwan Youssef
2. VASCUTEK - ThoracoFlex: Development of an Open Surgical Hybrid Stent-Graft for Treatment of TAAA, Mr. Mark Steckel
3. MEDTRONIC - Technological Innovation, just a piece of the puzzle, Mr. Germán Gutierrez
4. LOMBARD - What Advances in EVAR will matter in the Next five years', Mr. Peter Phillips

13.30 h - 14.30 h · LUNCH

- 14.30 h - 16.00 h** **Session 4: GREAT DEBATE: MedTech regulations and the impact on the future professional relationships.**
Moderators: V. Rimbau
Panellists: J. Boltà, A. Diego, E. Ducasse, E. Louwette
1. Updated overview. 5mins talk. E. Louwette, MedTech representative
 2. The MedTech point of view: Rationale and objectives
 3. The physician and health manager point of view
 4. The PCOs point of view
 5. The NO UCOMED/MedTech companies point of view
 6. The expected future scenarios. How to harmonize everything?

16.00 h - 18.30 h · FOCUS 2: LOWER LIMB THERAPY: UNSOLVED PROBLEMS

- 16.00 h - 17.00 h** **Session 5: The Confidential Session: Taking a look into the pipeline; new therapies are coming up.**
Moderators: E. Roche and F. Gallardo
Panellists: E. Martínez, R. Ferraresi, F. Vermassen, E. Ducasse
1. ABBOTT - Is there a role for OCT and FFR in peripheral endovascular procedures?, Miriam Bascones & Ana Barbi
 2. iVascular - New insights into nitinol stents durability: could invisible defects predict clinical outcomes?, Prof. Frédéric Prima
 3. WL GORE - Delivering Performance Today and Tomorrow: GORE® VIABAHN® VBX Balloon Expandable Endoprosthesis, Mr. Fabio Micilotta
- 17.00 h - 18.30 h** **Session 6: Unsolved issues in lower limb endo revascularization: From the durability to the cost effectiveness concerns**
Moderators: E. Puras and J. Fernández Noya
Panellists: E. Martínez, R. Ferraresi, F. Vermassen, E. Ducasse
1. Quality control in lower limb endo-revascularization
 2. Cost: Promise and limitations of DCB – what have we learned?
 3. Durability
 4. Effectiveness in new treatments and technologies
- 18.30 h** **Conclusions and Wrap-Up**
